

Soil moisture & temperature meter Takeme-10

Features

Takeme-10 is suitable for soil moisture monitoring, scientific experiments, water-saving irrigation, greenhouses, flowers and vegetables, grassland pastures, soil speed measurement plant cultivation, agriculture, etc., while at the same time in water conservancy, meteorology and various measurement of the moisture content of the particles.

Technical data

Moisture range : 0...100 %VWC (Volumatic water content)

Moisture accuracy : ± 3 %VWC within the range of 0...53 %VWC
 ± 5 %VWC within the range of 53...100 %VWC

Temperature range : -40...+80 °C

Temperature accuracy : ± 0.5 °C

Probe material : 316L stainless steel

Sealing material : Black flame retardant epoxy resin

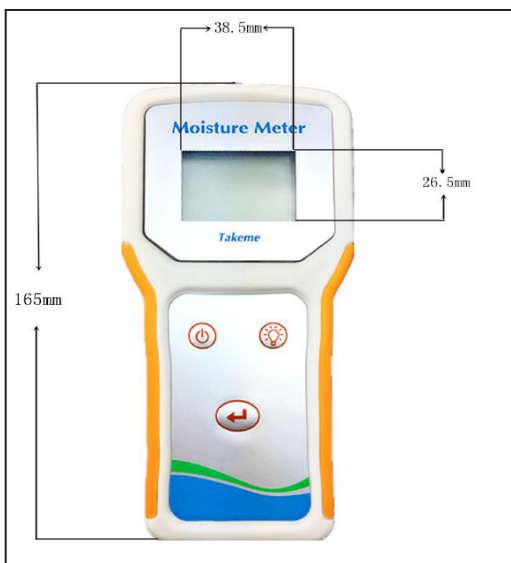

Cable length : 2 m (can be customized)

Probe diameter : 7 mm

Probe length : 70 mm

Power supply : 4 x AAA Alkaline battery

Protection : IP68 (Probe)
